

ENIGMA SOLUTIONS

JOIN THE DATA REBELLION

Enigma bridges the gap between emerging technology and operational impact. We identify mission needs, translate new technologies into actionable solutions, and ensure that every pilot or prototype delivers measurable, mission-relevant outcomes. We provide a controlled transition allowing government operators to confidently assume ownership of the solution.

Mission & Vision

Enigma Solutions was founded with a vision to redefine the capabilities of data analysis for government entities. Our journey began with a deep understanding of the challenges faced by our clients and the determination to develop solutions that surpass traditional methods. We take pride in our team's expertise and our unwavering commitment to driving positive change through revolutionary technology.

NAICS Codes

- 541511** — Custom Computer Programming Services
- 541512** — Computer Systems Design Services
- 541519** — Other Computer Related Services
- 541611** — Administrative Management And General Management Consulting Services
- 541690** — Other Scientific And Technical Consulting Services
- 541715** — Research And Development In The Physical, Engineering, And Life Sciences (Except Nanotechnology And Biotechnology)

UEI: KN8BV1BWYFM1 **CAGE:** 15BU1 **DUNS:** 14-487-0440

What We Do

Technical Partnerships: Exclusive provider of Equitus Knowledge Graph Neural Network (KGNN), Equitus Video Sentinel (EVS), and ARCXA technologies

Emerging Technology Introduction: Translate cutting-edge AI, graph analytics, and sensor fusion technologies into actionable solutions tailored to federal client missions

Solution Development for End Clients: Develop use cases, pilots, and prototypes that demonstrate measurable operational outcomes in real government environments

Business Development & Capture: Lead engagement with government stakeholders, identify priority mission areas, and map emerging technology solutions to operational outcomes

Contract Vehicles

Vulcan - a USSOCOM-backed platform connecting public and private organizations, accelerating discovery and assessment of national security solutions

Tradewinds - CDAO innovation portal connecting government buyers with vetted tech solutions through discovery, evaluation, and acquisition pathways

CMG - consortia uniting 3,400+ organizations via integrated OTAs, connecting government with tech solutions across defense, manufacturing, energy, and healthcare

NASA SEWP V - a GWAC contract offering streamlined acquisition of advanced technologies, services, and solutions for federal agencies

MDA SHIELD - a U.S. Missile Defense Agency initiative to enhance integrated air and missile defense. It combines advanced sensors, interceptors, and command systems to detect and defeat evolving threats while improving coordination across forces and allies.

Certifications

SBA-Certified WOSB

CMMC Level 2
